

I wish I understood the "new math" so I could help my child...

## Understanding My Child's Elementary Math Class:

### Workshops for Parents and Guardians of K-5 Students

The Center for Mathematics Achievement at Lesley University is pleased to announce a workshop for parents and guardians of elementary students.

Join Dr. Hilary Kreisberg, Director and Professor of Elementary Mathematics, where you will explore how math is taught in schools today, why math education has changed, and how to help your child at home.

The session will cover ten frames, number lines, area models and more... Register now to save your seat!

Find more information and **pre-register** (\$20 rate for advance pre-registration) for your spot at the following link:
